

CARPET & FABRIC PROTECTOR

DESCRIPTION

Product No.: 3004

RECON Carpet & Fabric Protector is a transparent fluoropolymer emulsion-based protective barrier for carpet & fabric fibers that helps to retard soiling, resist staining, and prevent the destruction of abrasion to keep carpets looking cleaner longer. This highly concentrated product dries to an invisible film which encapsulates each clean fiber to prevent rapid re-soiling of freshly shampooed carpets, rugs and other fabrics. Treated areas are soft, fluffy, free of streaks and spots. The innovative fluoropolymer system outperforms conventional protectant products to provide maximum longevity to valuable textile floor coverings and is ideal to use as the finishing step after restoration. This product is virtually odorless and is nonflammable.

PROPERTIES

- **Weight per gallon:** 8.34 lbs.
- **Color:** White Opaque
- **Odor:** Slightly Sweet
- **Flash Point:** None
- **pH:** 8.0
- **Shelf Life:** 1 year minimum in a sealed container
- **Packaged:** Gallons (4/case)

DIRECTIONS

Vacuum thoroughly. Clean and shampoo in normal manner. A clear water extract rinse is recommended. On long strand or deep pile carpet, use carpet rake to raise all fibers. Dilute concentrate with water at a rate of 1:8 (16 oz/1 gal). Blend well. Apply as a wet spray with a standard pump-up type sprayer or a hand-held trigger sprayer. When dry, spray on at rate of 100 square feet per diluted gallon and/or 200 square feet for normal commercial carpet. For plush or deep pile carpet, apply at a rate of 100 square feet per diluted gallon. Allow to dry completely before opening to traffic. Heavy traffic lanes should be sprayed twice allowing one hour drying time between applications. Sprayer should be held at least 2 or 3 feet above area to be treated and moved back and forth in a sweeping, overlapping motion, allowing the protector to land on the carpet in a gentle mist. Be sure fabric is clean before spraying. Most extractor shampoos are very strong and will remove the protector, so it needs to be reapplied after an extractor shampoo has been used. Regular 'high foam' or 'dry foam' shampoos will not do this, so protector need only be used after 2 or 3 shampoos.

RECON™

CARPET & FABRIC PROTECTOR

IMPORTANT: In spray applications, use pressure spray equipment at less than 60 psi. Use only with adequate ventilation to avoid inhalation of respirable particles. Do not use this product on wool or velvet. If product contacts hard furniture, wipe off with a clean, damp cloth.

Container Disposal: Triple rinse container and discard according to local regulations.

Spill or Leakage Procedures: Collect for disposal.

PRECAUTIONS

Contains flouropolymer emulsion. EYE IRRITANT. MAY CAUSE SKIN IRRITATION WITH PROLONGED CONTACT. Avoid contact with eyes, skin and clothing. Do not take internally. Avoid prolonged or repeated breathing of vapors. Keep out of the reach of children. Avoid storage of this product in freezing temperatures. Keep container tightly sealed when not in use. Read and understand the Material Safety Data Sheet (MSDS) before using this product.

FIRST AID

EYE CONTACT: Immediately flush eyes with water for no less than 15 minutes. Seek medical attention if irritation persists.

SKIN CONTACT: Flush with clean water followed by washing with mild soap and water. Seek medical attention if irritation develops.

INGESTION: Immediately drink 2 glasses of water. Do not induce vomiting. Seek medical attention immediately.

INHALATION: If overcome by fumes, remove victim to fresh air. Resuscitate if necessary. Get medical attention.
