## Your Source for EPA's Renovation, Repair and Painting (RRP) Products

NEW

### Lead Dust Wash

- **Lead Safe Lead Removal Wash** - Formulated specifically to clean up lead dust, this advanced detergent holds in suspension more lead dust than conventional cleaning products.

### Cleaning Wipes

- **Lead Safe Wipes** - Meet specific requirements in the RRP Rule by satisfying the work practice standards. LeadSafe wipes are designed specifically to efficiently remove harmful lead dust during and after renovations, repairs, painting or abatement. These convenient, easy-to-use heavy-duty, TSP pre-soaked towels meet all federal, state, HUD, and EPA guidelines for cleaning and removing lead dust.

### Permanent Lead Encapsulants

- **LBC & ChildGuard** - Permanent lead abatement coatings which offer unparalleled coverage, economics and paint-like aesthetics while preserving historic and architectural detail. Both LBC & ChildGuard contain Bitrex®, a bitter-tasting, non-toxic anti-ingestant to discourage oral contact with the coating.

### Paint Removers

- **Piranha 2,4,8** - Formulated to remove lead-based paint. Piranha removers include biodegradable NMP, alkaline paste and solvent based removers for virtually any lead-based paint removal project.

Meets EPA RRP  
Requirements
