Serpimastic is a water-based coating material. Coating Serpimastic is supplied ready to use, thinning is not necessary. Serpimastic Trowelable can be applied in a single application up to 500 mils (12.7 mm) thick without cracking or shrinking.

**PRODUCT APPLICATION**

- Apply Serpimastic using a wet trowel.
- For repairs of large damaged areas, weak insulation conductors. Always use goggles or suitable eye protection. If product is accidentally ingested, unless contraindicated, administer two or more glasses of water. Protective clothing should be worn.
- Do not ingest. Do not apply to energized electrical equipment. In case of exposure or contact, get medical assistance immediately. Do not apply to energized electrical equipment. Do not add water. Keep lid on until ready to use. Do not mix with any other coatings, solvents or colors in oil. Apply on when air and surface temperatures are below 40°F and 90°F. Do not apply at temperatures between 40°F and 90°F. Keep closures tight and containers upright to prevent leakage.
- Stir thoroughly. Do not mix with any other coatings, solvents or colors in oil. Keep lid on until ready to use.
- Do not apply to energized electrical equipment.
- Do not add water. Keep lid on until ready to use. Do not mix with any other coatings, solvents or colors in oil. Apply on when air and surface temperature are below 40°F and 90°F. Do not apply when conditioning environment is poor. Use adequate ventilation during application. Store in a dry place at temperatures between 40°F and 90°F. Keep lid on until ready to use. Do not mix with any other coatings, solvents or colors in oil. Apply on when air and surface temperature are below 40°F and 90°F. Do not apply at temperatures between 40°F and 90°F. Keep closures tight and containers upright to prevent leakage. Product is non-combustible.
- Do not apply to energized electrical equipment. Do not add water. Keep lid on until ready to use. Do not mix with any other coatings, solvents or colors in oil.

**DRYING TIME @ 70°F 50% R.H.**

- Completely Dry: 48 Hours

**COVERAGE**

- 14.5 sq ft per dry min

**DURING TIME TO 70°F 50% R.H.**

- To Touch: 2 Hours

- Completely Dry: 48 Hours
