These suggestions and data are based on information we believe to be reliable. They are offered in good faith, but without guarantee, as conditions of use and methods of use of this product are beyond our control. Neither Fiberlock Technologies, Inc., nor its agents shall be responsible for the use of this product or any procedures or apparatus mentioned. We recommend that the prospective user determine the suitability of this product, for each specific project and for the health and safety of personnel working in the area.

For additional information: check Safety Data Sheet (SDS) or Product Data Sheet (PDS) available online at www.fiberlock.com

DIRECTIONS

Dilute with water to concentration desired for effective cleaning and degreasing as follows:

Extreme Duty Cleaning

16 ounces per gallon of water (1:8)

Medium Duty Cleaning

8 ounces per gallon of water (1:16)

General Cleaning

4 ounces per gallon of water (1:32)

Stream Cleaning

2 ounces per gallon of water (1:64)

Apply with pumps, sponges, brushes or hand-cranked sprayers; as required; thoroughly with water. Allow to dry or wipe dry on smooth surfaces.

These directions are flexible rather than specific. In many cases a more dilute solution can be used, while for extreme conditions a less dilute solution may be used. Always test a small area in an inconspicuous area to determine if the solution will adversely affect the target material.

STORAGE

Store in a dry place at temperatures between 40°F (4.5°C) and 90°F (32°C). This cleaner is highly aggressive caustic cleaner. Do not use the product on any surface that could be damaged by pH 9 or higher pH. Always test substrate in an inconspicuous area to determine if the solution will adversely affect the target material. This product is not intended for use on titanium, magnesium, brass or other soft metals. Do not apply to painted surfaces. Do not allow the cleaning solution to contact bare metal surfaces for extended periods of time. If the solution contacts metal, immediately flush with plenty of water. If there is any possibility of this product coming in contact with any metal surfaces, always flush with clean water immediately. Contact your local environmental or waste management control officer for further guidance.

HAZARDS

This product contains butyl compounds which are flammable. Over dilution of this product will cause incomplete foaming and reduced cleaning power. Proper ventilation is required when using this product. When using this product, use a respirator with a high efficiency particulate air (HEPA) filter. Always wear protective clothing and eye protection when using strong acids or bases. Stainless steels, aluminum, and other metals may be harmed by extreme temperature changes and may cause corrosion, embrittlement, and pitting. Always use safety glasses when using this product. Use a respirator when applying or handling this product. Keep out of the reach of children. For professional use only.

FIRST AID

1. IN CASE OF CONTACT: rinse with water for at least 15 minutes. Remove contaminated clothing and wash before reuse.
2. IN CASE OF INHALATION: Remove to fresh air. Seek medical attention if necessary.
3. IN CASE OF EYE CONTACT: flush with water for at least 15 minutes. Remove contaminated contact lenses and flush eyes with plenty of water. Refer to the Material Safety Data Sheet for complete instructions.
4. IN CASE OF INGESTION: immediately drink large quantities of water. Do not induce vomiting. Call a Poison Control Center or doctor immediately.
5. IN CASE OF SKIN CONTACT: Wash thoroughly with water. If irritation persists, call a physician.
6. IN CASE OF DRESS CONTACT: remove clothing at once; wash clothing before reuse.

PPE

- Respirator with a high efficiency particulate air (HEPA) filter
- Protective clothing
- Protective eyewear
- Protective gloves

Container Disposal: Triple rinse container. Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill or by other procedures approved by state and local authorities. Do not contaminate water, food, feed, or other off-site materials. Drainage into sewers may cause damage to sewer systems.

IN CASE OF FIRE

Use dry chemical, carbon dioxide, water spray fog or alcohol foam. Avoid overcharge or dripping from floors. Do not use copper, bronze, or bronze-based alloys near this product.

APPLICATION

Extreme Duty Cleaner is one of the most powerful cleaning products available anywhere. Formulated to handle the most extreme cleaning jobs, this high pH, caustic fortified butyl based product provides superior ease of use in removing grime, oils, fats, carbon, wax, tar and other stubborn soils. RECON Extreme Duty Cleaner is a very high pH butyl cleaner for cleaning and removing the worst deposits in fire, smoke and water damage restoration applications.

IN CASE OF CONTACT: rinse with water for at least 15 minutes. Remove contaminated clothing and wash before reuse. Absorb spillage to prevent material damage. IF SWALLOWED: rinse mouth with water. Call a POISON CENTER or doctor/physician if you feel unwell. WARNING: Cancer and Reproductive Harm - www.P65Warnings.ca.gov

DANGERS

- Very high pH containing strong acids and bases.
- High alkaline content.
- Strong foaming.
- May cause severe burns.
- Severe respiratory irritation and eye irritation.

PROPOSITION 65 WARNING

This product contains chemicals known to the State of California to cause cancer, birth defects or other reproductive harm. Refer to the Material Safety Data Sheet for complete instructions.
