Professional Products
Professional Results

RECON Smoke Odor Sealer is a revolutionary solvent free smoke odor neutralizer and stain blocker designed to encapsulate malodors on multiple surfaces and block tough stains. RECON Smoke Odor Sealer with OdorLock technology is water based and is not flammable. Unlike typical water based coatings that “lock” smoke odors and stains out of the substrate as they dry, RECON Smoke Odor Sealer with OdorLock technology prevents smoke odors and stains from migrating through the coating. This technology provides superior odor control on most surfaces and continues to block odors even with seasonal changes in temperature and humidity. RECON Smoke Odor Sealer (SSP™) is your final step to encapsulate residual odors typically found on fire damage restoration projects.

SURFACE PREPARATION

Wear a NIOSH approved respirator to control lead exposure. Wear a NIOSH approved respirator to control lead exposure. Prior to applying Fiberlock’s RECON Smoke Odor Sealer (SSP™) it is critical that the substrate be thoroughly cleaned. Smoke odor encapsulation is a final step that needs to be part of a comprehensive smoke damage management protocol. This protocol should include the following steps: Odor Cleaning, Odor Neutralization and Odor Encapsulation.

Fiberlock recommends cleaning with RECON Heavy Duty Odor Management Protocol. This protocol should include the following steps: Odor Cleaning, Odor Neutralization and Odor Encapsulation.

RECON Smoke Odor Sealer is a revolutionary solvent free smoke odor neutralizer and stain blocker designed to encapsulate malodors on multiple surfaces and block tough stains. RECON Smoke Odor Sealer with OdorLock technology is water based and is not flammable. Unlike typical water based coatings that “lock” smoke odors and stains out of the substrate as they dry, RECON Smoke Odor Sealer with OdorLock technology prevents smoke odors and stains from migrating through the coating. This technology provides superior odor control on most surfaces and continues to block odors even with seasonal changes in temperature and humidity. RECON Smoke Odor Sealer (SSP™) is your final step to encapsulate residual odors typically found on fire damage restoration projects.

PRODUCT APPLICATION

Apply RECON Smoke Odor Sealer generically and uniformly by brush or airless spray. Roller application is not recommended. Apply one coat of RECON Smoke Odor Sealer and ensure that the finished surface is properly sealed. To ensure that the finished surface is properly sealed, two-coats may be required on some porous or unevenly stained surfaces. Topcoat applications after flood traffic or heavy storage is expected. RECON Smoke Odor Sealer is tintable up to 2 oz. of universal liquid colorant per gallon.

Seal Applications: RECON Smoke Odor Sealer can be used to encapsulate malodors within HVAC systems. As a part of fire damage restoration. This product can be used in block odors even with seasonal changes in temperature and humidity. RECON Smoke Odor Sealer meets requirements of NFPA 90A/90B standard.

APPLICATION TOOLS

Apply RECON Smoke Odor Sealer with a brush or airless spray equipment. Brush:Synthetic, nylon or polyester bristle
Roller: Not recommended
Tips: 017 to .021 tips

MOVING TO DRY

To Touch: 30 Min.
To Recoat: 4 Hours
Drying Time: 70°F 50% H.R.

NOT CONTENTS: 5 Gallons
