POWER RUST STOP

100% Acrylic Rust-Inhibiting Primer

- Stops flash rusting before it starts
- Water based formula
- Fast drying
- Excellent resistance to most alkalis

NET CONTENTS: 5 Gallons

For Professional Use Only

Industrial Coatings & Primers

Power Rust Stop is a white, rust inhibiting, 100% acrylic latex direct-to-metal (DTM) coating for use on ferrous metal, galvanized metal and other surfaces exposed to general industrial and atmospheric conditions. Power Rust Stop has excellent aliphatic solvent and water resistance and excellent resistance to most alkalies, detergents and mild acids. This acrylic latex DTM coating does not contain the flammable solvents found in other rust inhibiting paints.

SURFACE PREPARATION

Warning! If you scrape, sand, or remove old paint from any surface, you may release lead dust. LEAD IS TOXIC. EXPOSURE TO LEAD DUST CAN CAUSE SERIOUS ILLNESS, SUCH AS BRAIN DAMAGE, ESPECIALLY IN CHILDREN. PREGNANT WOMEN SHOULD ALSO AVOID EXPOSURE. Wear a NIOSH approved respirator to control lead exposure. Carefully clean up with a wet mop or HEPA vacuum. Before you start, find out how to protect yourself and your family by contacting the U.S. EPA/Lead Information Hotline at 1-800-424-LEAD (5323) or log on to www.epa.gov/lead.

Remove all oil, grease, dirt, loose or scaling paint, rust, mil scale and other foreign matter.

FERROUS METAL: Industrial structures, tank exteriors, structural steel, etc., should be "commercial" blast cleaned (SSPC-SP6) or power tool cleaned (SSPC-SP3) as an alternative.

GALVANIZED METAL, ALUMINUM: Surface oil should be wiped off with mineral spirits and a clean rag.

PREVIOUSLY PAINTED SURFACES: Prepare ruptured or scratched surfaces as for unfinished metal. Spot prime bare ferrous metal as conditions dictate.

APPLICATION TOOLS

Apply Power Rust Stop with brush, roller or airless spray equipment.

- Brush: Synthetic, nylon or polyester bristle
- Roller: Synthetic fiber 3/8" nap or longer
- Spray: .017 to .021 tip @ 2300-2800 P.S.I.

PRODUCT APPLICATION

Stir thoroughly with a lifting action to fully incorporate; pigments. Power Rust Stop is supplied at application consistency, but can be thinned sparingly with up to 8 oz. of water per gallon to improve application consistency if necessary. Apply with appropriate application equipment. Apply 2 coats of Power Rust Stop. Finish coat will seal spots of 'flash rusting' which may appear on ferrous metal after first coat.

COVERAGE

- Smooth Surfaces: 400-500 ft²/gal.
- Porous Surfaces: 100-300 ft²/gal.
- Depends on thickness and porosity of the material

DRYING TIME @ 70°F 50% R.H

- To Touch: 1 hour
- Recoat with Power Rust Stop: 4 hours
- Recoat with other water-based coatings: 8 hours
- Full Cure: 10 days

CLEANUP

Clean tools and drippings with warm soapy water before Power Rust Stop dries. Dispose of waste according to all existing local, state and federal regulations.

PRECAUTIONS

Store in a dry place at temperatures between 40°F (4.5°C) and 90°F (32°C). Keep closures tight and containers upright to prevent leakage. Product is non-combustible. Surface and air temperature must be 50°F or above during application and drying time. Do not recoat with coatings using aromatic or other strong solvents. Do not intermix with solvent base primers or finishes. Do not use Power Rust Stop when rain is imminent or when the dew point is above 60 percent. Power Rust Stop is not designed for tank interiors or for immersion service. When applying with a sprayer, wear a NIOSH approved respirator with any R, P, N or HE filter. The coating and any contaminated diking material should be thoroughly air dried and collected into drums. The drums should be sealed and labeled and land-filled or incinerated according to local, regional and national regulations.

CAUTION!
KEEP OUT OF REACH OF CHILDREN.
Do not take internally.
Close container after each use.
Keep from freezing.
Store between 40°F (4.5°C) and 90°F (32°C)
24 hour Emergency "CHEM-TEL" Phone: 1-800-255-3924

Calculated VOC: 98 g/l

FIBERLOCK POWER RUST STOP WHITE 5493
DANGER | DANGER

- H319 - Causes serious eye irritation.
- H317 - May cause an allergic skin reaction.
- H350 - May cause cancer.
- H411 - Toxic to aquatic life with long lasting effects.

Obtain special instructions before use.; Wear protective gloves/protective clothing/eye protection/face protection.; Use personal protective equipment as required.; Avoid breathing mist/vapours/spray.; Avoid release to the environment.; Contaminated work clothing should not be allowed out of the workplace.; See SDS for full list of P phrases

If exposed or concerned: Get medical advice/attention.; Specific treatment (see advice on this label); Wash contaminated clothing before reuse.; IF ON SKIN: Wash with plenty of soap and water.; IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.; If skin irritation or rash occurs: Get medical advice/attention.; See SDS for full list of P phrases
