

Piranha Neutralizer is an easy to use neutralizing agent that must be applied after using Fiberlock's Piranha 8 and Piranha NexStrip 8. Piranha Neutralizer is suitable for use on interior and exterior surfaces including concrete, brick, stone, metal, wood, fiberglass and other similar surfaces. Wood surfaces may darken after using Piranha 8 and Piranha NexStrip 8. Apply a solution of Piranha Neutralizer to help restore the natural color of wood surfaces.

**TEST AREA:** Before general use, it is important to test on a small, inconspicuous area to determine compatibility, required dwell time, coverage and desired results.

**APPLICATION:**

1. Cover/protect/mask areas with plastic sheeting where neutralization is not required. If necessary protect plants and vegetation. Wear impervious gloves, apron and footwear and safety goggles and/or a face shield while using Piranha Neutralizer.
2. Dissolve ½ to 1 pound of Piranha Neutralizer to each gallon of clean, tap water.
3. Apply solution liberally using a brush, roller or pump/trigger sprayer and let stand for 15-20 minutes.
4. Thoroughly rinse surface with clean, tap water.
5. Check surface pH after rinsing surface with water. If pH is above 8, reapply Piranha Neutralizer until pH is within a range of 6-8 or a range deemed acceptable by the coating manufacturer if the substrate is being repainted.
6. Thoroughly rinse surface with clean water to remove any Neutralizer residue.
7. Allow surface to thoroughly dry for 5-7 days before applying any film forming coatings or paints. Prior to repainting always recheck pH to be certain it has remained within the acceptable range.

**COVERAGE** Approximately 100-125 ft<sup>2</sup>/gal. Coverage rates will vary depending upon the substrate and the application method utilized.

**CLEAN UP:** Clean all applicators and equipment with soap and water. Do not store or collect residue in metal containers. Use plastic containers only.

**WARNING:** Cancer and Reproductive Harm - [www.P65Warnings.ca.gov](http://www.P65Warnings.ca.gov)

**DISPOSAL:** Dispose of all residue and un-used product in accordance with local, state and federal regulations. Local requirements vary. Consult your local sanitation department or state designated environmental agency for local disposal options.

**FIRST AID EYES:** Immediately flush eyes thoroughly with water for at least 15 minutes. Get immediate medical attention.

**SKIN:** Immediately wash with soap and water. Remove contaminated clothing and launder before reuse. If irritation develops, seek immediate medical attention.

**SWALLOWED:** If swallowed, rinse mouth out with water and give 1 glass of water. Do not induce vomiting. Immediately contact poison control center, physician or hospital emergency room for instructions.

**PRECAUTIONS:**

**WARNING:** Avoid contact with eyes, skin and clothing. Avoid breathing dust. Do not take internally. Use only with adequate ventilation. Contains citric acid. Wash hands with soap and water after each use.

Close container after each use. Store in a well-ventilated place away from moisture and incompatible materials. Shelf life is indefinite in original, closed container.

**CAUTION!**

**KEEP OUT OF REACH OF CHILDREN.**

Do not take internally. Close container after each use. Keep from freezing.

Store between 40°F (4.5°C) and 90°F. (32°C).
