**PRODUCT INFORMATION**

For best results, perform a test patch to determine the adequate coverage. When Piranha 4 has penetrated to the polyethylene sheeting. Piranha 4 can be applied using a spray system is dependent on the application temperature, and 60°F. Avoid direct sunlight.

**COVERAGE**

**APPLICATION TOOLS**

Apply Piranha 4 with brush, roller or airless spray equipment.

**Brush:** Synthetic, nylon or polyester bristle.

**Roller:** Synthetic-fiber 3/8” nap or longer. Spray: .019 to .021 tip.

**PRODUCT APPLICATION**

For best results, perform a test patch to determine the appropriate dwell time required to remove the existing paint or coating. The length of time required to remove a coating system is dependent on the application temperature, and 60°F. Avoid direct sunlight.

**APPLICATION**

**SURFACE PREPARATION**

Clean substrate with mild detergent solution. All Piranha 4 substrates, scrape the softened paint residue. When Piranha 4 has penetrated to the polyethylene sheeting. Piranha 4 can be applied using a spray equipment.

**CLEANUP**

Clean tools and equipment with warm soapy water. Collect waste in a plastic bag or drum. Properly dispose of waste and wastewater in accordance with all local, state and federal regulations. Keep container closed when not in use. In practical, filter wastewater in accordance with a federal and locally accepted method to minimize the amount of waste which must be disposed of in hazardous.

**PRECAUTIONS**

Store in a dry place between 40°F (4.5°C) and 90°F (32°C). Store in a well-ventilated place. Keep container tightly closed. Keep cool. Protective clothing should be worn when working with Piranha 4. Wear respirator when working with Piranha 4. Keep container in accordance with local/regional/national/ international regulations.

**FIRST AID**

IF EXPOSED OR IF YOU FEEL UNWELL: Call a-poison-center or doctor. IF IN EYES: Rinse cautiously with water for at least 15 minutes while holding eyes open. Get medical attention. IF INhaled: Remove to fresh air. IF INhaled at all. Face and head protection should be worn when working at height or overhead. Dispose of all equipment.

**PRACTICAL SAFETY INFORMATION**

**PREFERENCES**

Inhalation: Remove victim to fresh air and provide artificial respiration if breathing is difficult. Get medical attention immediately. If practical, filter wastewater in accordance with a federal and locally accepted method to minimize the amount of waste which must be disposed of in hazardous.

**HAZARDOUS INGREDIENTS**

**ASBESTOS**

Some paint contains asbestos fibers. If your paint contains asbestos, consult your local building official to determine if asbestos waste which must be disposed of as hazardous.

**PRECAUTIONARY PHRASES**

**DANGERS**

Keep away from naked flames and all other sources of ignition. Avoid exposure. Wear a NIOSH approved respirator to control dust. Use of this product can release dust which must be disposed of as hazardous. LEAD (5323) or log on to www.epa.gov/lead. Avoid exposure to lead dust. LEAD IS TOXIC. EXPOSURE TO LEAD DUST CAN CAUSE SERIOUS ILLNESS, SUCH AS BRAIN DAMAGE, and 90°F (32°C). Store in a well-ventilated place. Keep container tightly closed. Keep cool. Protective clothing should be worn when working with Piranha 4. Wear respirator when working with Piranha 4. Keep container in accordance with local/regional/national/ international regulations.
