**PRODUCT APPLICATION**

IAQ 3000 is supplied ready to use, but can be thinned sparingly with water for proper application consistency if necessary. IAQ 3000 should be applied fully body, vertically and cross-hatched horizontally to remove all roller ridges and unevenness in the block filler. Brushing should be done with a short stubby brush, working the material well into any pinholes, pores and voids. Material should be applied in horizontal sections with block mortar lines serving as a guide. Spray application is not recommended because the silica content is abrasive to spray equipment.

**SURFACE PREPARATION**

If you scrape, sand, or remove old paint from any surface, you may release lead dust. Lead is TOXIC. EXPOSURE TO LEAD DUST CAN CAUSE SERIOUS ILLNESS SUCH AS BRAIN DAMAGE, ESPECIALLY IN CHILDREN. PREGNANT WOMEN SHOULD ALSO AVOID EXPOSURE. Wear a NIOSH-approved respirator to control lead exposure. Clean with a wet mop or HEPA vacuum. Before you start, find out how to protect yourself and your family from lead dust. Call 1-800-424-LEAD (5323) or log on to www.epa.gov/lead.

**APPLICATION TOOLS**

Apply IAQ 3000 with brush or roller. Spray application is not recommended because the mineral content is abrasive to spray equipment.

**CLEANUP**

Clean tools and drippings with warm soapy water before IAQ 3000 dries. Dispose of waste according to all existing local, state and federal regulations.

**PRECAUTIONS**

Store in a dry place at temperatures between 40°F (4.5°C) and 90°F (32°C). Stir thoroughly. Do not mix with any other coatings, solvents or color in oils. Do not apply IAQ 3000 when air or surface temperature falls below freezing. When drying conditions are poor, keep from freezing IAQ 3000 will reduce seepage, but it is not intended for use as a waterproofer. For waterproofing applications do not use IAQ 3000, but is not intended for use as a waterproofer. IAQ 3000 should not be used as a finish coat or be allowed to weather for more than 60 days without being finish coated. When applying with a sprayer, wear a NIOSH approved respirator with any R, P, N or HE filter. Use adequate ventilation during application. This coating is not intended for use as a mold-resistant coating.

**CALCULATED VOC:**

47 g/l
