PRODUCT APPLICATION

Prior to application, mix thoroughly to achieve a uniform consistency. Apply IQA 7500 to all surfaces by brush or airless spray. Application rate will vary depending on porosity of the insulation. Apply on clean or dry surface by air spray or two coats by brush. Penus surfaces may require additional coats. Ensure that surfaces are completely sealed. Circulate fresh air through the HVAC system to help dry the coating. Exhaust air outside the building. IQA 7500 can be applied using HVNC robotic spray applications (contact Fiberlock for more information).

COVERAGE

Smooth Surfaces: 100-200 ft²/gal
Porous Surfaces: Depends on porosity

DRYING TIME @ 70°F 50% R.H
To Touch: 1 hour
To Recycle: 8-16 hours

CLEANUP

Clean tools and drippings with warm soapy water before IQA 7500 dries. The coating and any drippings can be removed with soap and water. Clean tools and drippings with warm soapy water before IQA 7500 dries. The coating and any drippings can be removed with soap and water.

APPLICATION TOOLS

Apply IQA 7500 with brush, roller or airless spray equipment.

Brush: Synthetic, nylon or polyester bristle
Roller: Synthetic fiber 3/8” nap or longer
Spray: 60 to 80 psi

APPLICATION TOOLS

Select application tools with care. Newer synthetic nap rollers or airless spray equipment are usually recommended for the maximum work efficiency. Old equipment can result in poor work efficiency and the spray will appear to be streaky.

HARDENING TIME

Over hardening, which is the condition where the coating becomes hard and brittle before it is dry, can be avoided by following the proper procedures. Over hardening is caused by: too cold a temperature, too high a humidity, too much dust present or too little ventilation.

PRECAUTIONS

Store in a dry place at temperatures between 40°F (4.5°C) and 90°F (32°C). Keep closures tight and prevent leakage. Product is non-combustible. Stir thoroughly. Do not mix with any other coatings, solvents or colors in oil. The manufacturer accepts no responsibility for any loss caused to users as a result of the use of this product, or any negligence in the use of this product on the part of the user.

WASTE DISPOSAL

Do not apply to any surface where this product is not intended to be used. Clean tools and drippings with soap and water. The product is fully biodegradable and has no significant impact on the environment.

CAUTION!

Do not dispose of in the normal household waste stream. This product contains no hazardous ingredients. This product contains no ingredients that are classified as hazardous.
