Re: **Fiberset FT/A-B-C Encapsulant**

Dear Mr. O'Conner,

We would like to thank you for the opportunity of reviewing your products. After testing the compatibility of our adhesives with the two products submitted, we found both ABC and Fiberset FT to adhere well with the following Roberts adhesives:

3000 Multi-Purpose	3095 Fast Grab Carpet Adhesive	6900 Multi-Purpose Environmentally Safe
3065 Multi-Purpose	3100 Multi-Purpose	7000 Multi-Purpose Environmentally Safe
3075 Multi-Purpose	3057 Tile Adhesive	2001 Sheetgoods Adh.
3085 Multi-Purpose	3077 Carpet Tile Adh.	*****

Roberts will warrant the use of the specified adhesives listed above for compatibility with Fiber Lock's ABC Encapsulant and Fiberset FT providing it is used according to all manufacturers recommendations. In the event a problem should occur and it is determined that Roberts adhesive was defective and was the cause of the failure, Roberts agrees to pay the cost of needed repairs or replacement to include both materials and labor for a period of 1 year from the date of installation.

Roberts will not be held responsible for failure due to faulty or defective installation of Fiberset FT and/or ABC Encapsulant, improper, dusty, or contaminated substrates, problems caused by moisture, fungus, excessive alkali, or post installation maintenance.

Should you have any questions, please don't hesitate to contact me.

Sincerely,

Dave Baker  
Technical Service Mgr.
