## Lead Abatement Products

## Lead Abatement Products

Quality and safety are important at Serpi Systems. As a result, we invest much time, effort and money to achieve these objectives. Serpi Systems is committed to ensuring that all of its products and systems meet or exceed the most stringent industry standards and testing. Each of our products has been repeatedly tested for performance and durability. Virtually all of our products are manufactured in our own facilities and all Serpi Systems Products meet rigorous standards of UL, Factory Mutual, UL Canada and/or British Standard where applicable. Look for these approvals and other listing agencies recognizing Serpi Systems Products on each product package label.

## Barrier Coat II Lead Encapsulant Coating

Barrier Coat II Lead Encapsulant Coating is a copolymer, acrylic-based coating that features over 65% solids and exceeds known published standards for lead encapsulants. In addition, this elastomeric coating features excellent film flexibility and creates a tough surface with outstanding impact and abrasion resistance. It can be applied quickly – by spray, roller or brush and contains a non-toxic antiingestant. Designed for both interior and exterior uses, Barrier Coat II dries to a white finish and is available in 1 and 5 gallon containers.

## Super-C-Lead Strip 'SS' (Self-Sealing) Lead Paint Removal Paste

Super-C-Lead Strip 'SS' has been specially formulated for the removal of lead-based paints on steel structures. However, this product can also be used on masonry, metal, soft wood, marble, plaster wall, ceiling and decorative plaster. It can be sprayed, brushed or troweled and remains wet and working up to 24 hours. Super-C-Lead Strip 'SS' removes multiple coats of paint and varnish in one application. It is available in 5 and 55 gallon containers.

## Availability

Lead Abatement Products are available through authorized Serpi Systems distributors.

## Technical Support
